

METAL ROOFING

Metal Tiles, Shakes and Shingles - August 2020

Metal tiles, shakes and shingles featured in Metal Architecture's August 2020 issue.

Posted August 03, 2020

Boral Roofing LLC

Boral Roofing's Boral Steel Granite-Ridge metal shingles come in five colors: Barclay, Charcoal, English Suede, Ironwood and Timberwood. Each low-profile shingle provides coverage of 13 11/16 inches wide by 44 inches long. The stone-coated steel shingles have a Class 4 rating for Hail Impact Resistance and Class A Fire Rating when using designated accompanying underlay materials. Granite-Ridge shingles have a hurricane performance rating with Miami-Dade County HVHZ Approval.
