

Boral Steel™ Screws

THE SMARTEST CHOICE FOR ANY STONE COATED STEEL ROOF

WEATHER
RESISTANT

SAVE
TIME & MONEY

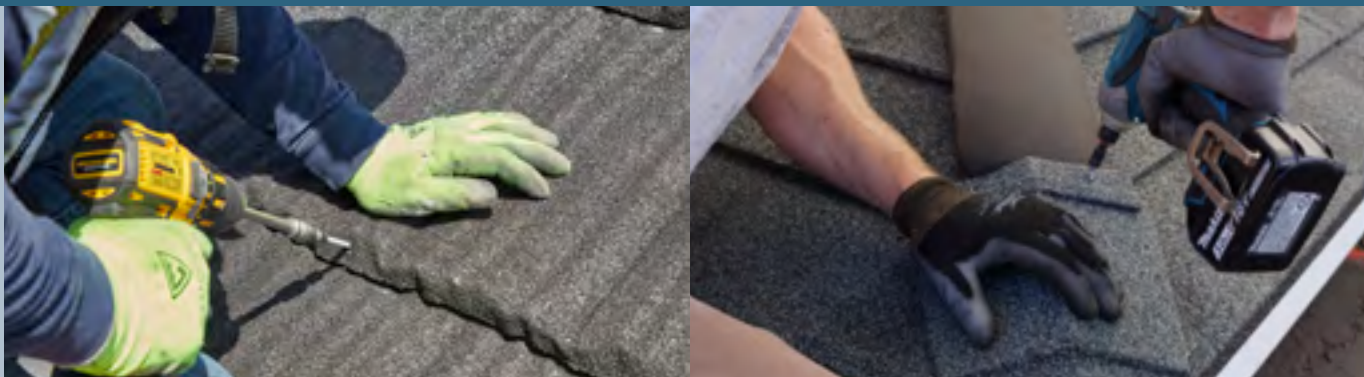

EASY
INSTALLATION

Boral Steel™ Screws cover all your fastener needs for any stone coated steel roof project.

All our Screws have been performance tested and are coated with L3 Dura Protec™, a corrosion resistant coating, and the panel screw heads are colored to blend with the panels and trim. The sharp T-17 self-tapping point coupled with the unique H-Low™ threads ensures a fast and easy install every time.

Boral Steel™ Screws

MAKE YOUR ROOF SECURE

Weather Resistant

Designed for any climate, all Boral Steel™ high-grade carbon Screws have been corrosion tested to 1,000 hours (Salt Spray ASTM B117). We also offer Stainless Steel Panel Screws that have been tested to 1,500 hours of Salt Spray. These characteristics make Boral Steel Screws the best choice to fasten any stone coated steel roof product.

Save Time and Money

Each screw has a combination of a sharp T-17 self-tapping point along with high and low threads to ensure they drive quickly through the multi layers of steel panels and into the wood decking or battens. By using screws to secure the stone coated steel roof panels and accessories makes it easier for repairs and retrofits with solar, skylights or other roof upgrades in the future.

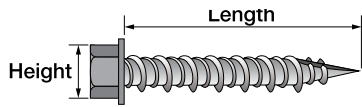

PANEL SCREWS							
	2" Length - HWH		2.5" Length - HWH		Packaging	Screw Head Color	Boral Steel™ Panel Color

ABOUT BORAL ROOFING

Boral Roofing LLC is a subsidiary of Boral USA and is the country's largest premium provider of complete roofing and re-roofing solutions for architects as well as commercial and residential builders. Boral Roofing operates manufacturing plants throughout the U.S.

ABOUT BORAL NORTH AMERICA

Headquartered in Roswell, Georgia, Boral North America is a leader in key construction materials and building products markets with operations across the USA, Canada and Mexico. In 2017 Boral acquired Headwaters Incorporated, expanding Boral's product offering and manufacturing and distribution footprint across North America. In construction materials, Boral has a national footprint and industry-leading position in the processing and distribution of fly ash – a by-product of coal combustion.

In building products, Boral manufactures and supplies cladding, roof tiles, windows and other light building products for residential and commercial markets nationally. Boral's manufactured stone veneer includes leading brands Cultured Stone® by Boral®, Boral Versetta Stone®, Eldorado Stone™, Dutch Quality Stone and StoneCraft. Boral's light building products portfolio includes Boral TruExterior® Siding & Trim – a pioneer of the innovative poly-ash category of exterior building products – as well as shutters, gable vents, mounting blocks and tool systems. In roofing, Boral is a leading manufacturer of clay and concrete roof tiles, and also produces composite polymer and stone-coated metal roof tiles.

Boral also has a 50% share of the Meridian Brick joint venture, a leading clay and concrete brick manufacturer which was formed with Forterra Brick in 2016.
